## EXPERIENCE

### Software Developer

sulaymaniyah | 2023-05-02 - 2024-02-02 | Bruska

I am proud to have been part of Bruska, a leading provider of comprehensive management software solutions tailored for businesses across diverse industries. Bruska's cloud-based ERP software stands out as the ultimate solution for companies, offering seamless integration and efficiency from small enterprises to large corporations. As a software developer at Bruska, I contributed to the development of numerous applications, both frontend and backend, utilizing the MERN stack. Additionally, I developed applications using React Native and built web applications with Next.js.

### software developer

sulaymaniyah | 2024-02-02 - 2024-06-02 | Peshawa group

Develop and maintain web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js) to create scalable and high-performance solutions. Build and manage backend services with Laravel and MySQL, including designing RESTful APIs and database structures. Work closely with cross-functional teams of design and implement new features and functionalities. Participate in code reviews, offering constructive feedback to ensure high code quality and adherence to best practices. Write clean, maintainable, and well-documented code. Optimize applications for maximum speed and scalability. Troubleshoot, debug, and upgrade existing software. Stay up-to-date with the latest industry trends and technologies to bring innovative solutions to the team. Key Achievements: Successfully led the development of a complex web application that significantly improved client business operations. Check it out here: <https://bibarstest.peshawa.online> Implemented performance optimizations that reduced
